J. W. Bradley's New Patent Doplex Elliptic (or double) Spring Skirt.

Le invention consists of Duplex (or two)
Elliptic Pure Refired Steel Springs, ingeniously
braided tightly and firmly together, edge to
edge, making the toughest, most inflexible, e ustio, and durable Spring ever used. They seldem bend or break, like the single springs, and consequently preserve their verfect and beautiful shape more than twice as long as any single spring skirt that ever has or canable made.

The wonderful flexibility and great comfort The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, certiages, railroad cars, church pews, arm chairs, for promeonde and house dress, as the skirteen be folded when in use to occupy a small place as easily and conveniently as a silk or muslin

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards dispense with their use. For children, Misses and young ladies they are

anperior to all others.

The hoops are covered with two ply double twister thread and will wear twice as long as the single varn covering which is used on all Single Steet Hoop Skirts. The three bottom rods on every Skirt are also double steel, and twice or double covered to prevent the covering

twice or double covered to prevent the covering from wearing eff the reds when dragging down stairs, stope steps, etc., etc., which they are sonaturally subject to when in uso.

All are made of the new and elegant corded tapes, and are the best quality it, every part, giving to the wearer the mest graceful and perfect shape possible, and are unquestionably the lightest, most durable, comfortable and contomical skirt ever made.

WESTS BRADLEY & CARY, Proprietors of the invention, and sole manufacturers, 97 Chambers, and 79 and 81, Read streets, New For sale in all first-slass stores in this city. and throughout the United States and Canadas, Havanna de Cuba, Mexico, South America, and

the West Ir dies.

The Property of the Duplix Elliptic (or double) Spring Skirt.

January 18, 1866, Emo.]

THE MODEL SEWING MACHNE.

Prominent among the mechanical tri-

umphs of this most ingenious age, common honesty compels us to notice the Em-pire Sewing Machine, commended as just-by styled perfection itself. Useful as have been the various sewing machines, from time to time presented to the public, each one of them has been cursed with some radical defect, which detracts from general utility. Warned by the experience of his predecessors, the inventor of the Empire Machine has produced an instrument, combining all the advantages for which others are vaunted, and obviating every defect which can be attrabuted to them by the most fastidious critic.

The Empire Macnine is a marvellous combination of simplicity, economy and perfect workmanship, being durable, free frema libility to get out of order, noiseless, and ensy of operation. Its mechanical contivance is such as to secure stability, free dom from accident, and accuracy as to a See the remarks made by the calebrated Dr. workmanship. By the use of the patented. Physic, of Philadelphia. dom from accident, and accuracy as to shuttle and straight needle, it makes a stitch, which can neither rip nor ravelwhile, at the same time, it can operate perfectly upon every species of material from leather to cambric, with threads of cotton, linen or wilk, from the finest to th coarsest number.

As the Empire Machine is gradually supplanting its more antique rivals, no one in want of a more useful iestrument of this description, be he or she tailor coachmaker, dressmaker or seamstress, can do otherwise than secure of these economical and inimitable machines, suited alike for family and manufacturing purposes.— The office of the Empire Manufacturing Co. is at No. 536 Broadway, New York City, where they are now supplying these Empire Machines at prices for below the real value of the instruments, -- New Yor

From the Phila. Even'g Bulletin, March 10th. J

We are gratified to hear of the continued anscess in New York, of our townsman, Mr. II. T. tlelmbold, Druggists. His store, next to the Metropolitan flotel, is 23 feet front, 230 feet deep, and five stories in height. It is certainly a grand establishment, and speaks favorably of the merits of his articles. He returns his office and laboratory to this city, which are also model as the billy works of their deep.

though advertised, are GENUINE PREPARATIONS

And knowing that the intelligent refrain from using anything pertaining to quackery or the Patent Medicine order—most of which are prepared by self-styled Docters, who are to g-norant to read a physician's simplest prescrip-tion, much less competent to prepare pharma-cential preparations contial preparations,

THESE PARTIES RESORT

to various means of effecting sails, such as cop-ying parts of advertisements of popular rem-edies, and finishing with certificates. The Science of Medicine stands imple, pure, and majestic, having fact for its basis, induction for its pillar, truth alone for its capital.

A WORLD OF CAUTION.
